Oskar Pajka

Software Developer and Motion Designer

Kielce, Poland (remote) | oskar@oskarpajka.com | oskarpajka.com | github.com/oskarpajka | linkedin.com/in/oskarpajka

SUMMARY

Programming student who builds full-stack web applications in TypeScript, React and Next.js, with automated tests and containerised deployment from the first commit. Also produces launch films for software products in After Effects.
Looking for a software internship or part-time role, available remotely alongside school.

PROJECTS

Slotwise | Booking and SMS reminder app for small businesses — Oct 2026 – Present
Next.js, TypeScript, PostgreSQL, Drizzle ORM, Docker | github.com/oskarpajka/slotwise

- Designing and building a self-hosted web app for a business owner to manage clients, services and appointments, with SMS confirmations and reminders.
- Implemented password sign-in with required two-factor authentication (authenticator app and backup codes) using Better Auth.
- Set up Docker Compose deployment with automatic database migrations, and a CI pipeline running unit, integration and end-to-end tests (Vitest, Playwright).

framecatch | Open-source screenshot and screen recording tool for Windows — Oct 2026 – Present
Electron, React, TypeScript | github.com/Common-Branch/framecatch

- Co-developing with a second developer: hotkey-driven region and full-screen capture that saves straight to the desktop; screen recording in progress.
- Work through pull requests with code review on every change and agreed branch and commit conventions.

oskarpajka.com | Personal website, English and Polish — Oct 2026
Astro, TypeScript, Cloudflare Workers, Cloudflare R2 | oskarpajka.com

- Designed and built a static bilingual site with a custom video player, deployed automatically from GitHub, with no tracking scripts or cookies.

Hoplite launch film | Independent concept film — Oct 2026
After Effects | oskarpajka.com/work/hoplite

- Rebuilt the product's interface for animation and produced a 32-second 4K film, including sound design.

BridgeMind launch film | Independent concept film — Aug 2026
After Effects | oskarpajka.com/work/bridgemind

- Produced a 30-second film in square and vertical cuts, rebuilding the BridgeSpace and BridgeVoice interface.

SKILLS

Languages: TypeScript, JavaScript, HTML, CSS, SQL, Python, Swift
Frameworks: React, Next.js, Astro, Electron, Tailwind CSS
Tools: Git, GitHub Actions, Docker, PostgreSQL, Vitest, Playwright, Cloudflare
Design and motion: After Effects, Figma, Illustrator, Photoshop

EDUCATION

Zespół Szkół Informatycznych (ZSI), Kielce — 2024 – 2029 (expected)
Programming Technician (Technik programista)

AWARDS

Laureate (one of 26), 5th Świętokrzyskie Province Computer Science Competition for primary schools — 2024

LANGUAGES

Polish (native), English (C1, preparing for Cambridge C1 Advanced)
